SENSITIVE SIDE

**SafetyGrip® Latex Gloves
Provide Superior
Fingertip Sensitivity**

The unique, deeply embossed texture of SafetyGrip® Latex Gloves assures a significant increase in grip and control. In fact, 85% of operators say FoodHandler textured gloves have superior grip and control over smooth gloves.¹ This brings you improved food handling performance for tasks that require a more sensitive touch.

The Right Feel For IMPROVED GRIP

Deeply Embossed, Formfitting SafetyGrip® Latex Gloves

Operators cite better grip, less slippage and ease of food handling as important features of textured gloves.² SafetyGrip® Latex Gloves offer improved grip and fingertip sensitivity with ultimate formfitting comfort—so you can perform better in all your food handling tasks.

Gloves are available in lightly powdered or powder-free styles. Gloves are also available packaged in the sealed, sanitary UltraSafe™ Dispenser, which provides cuff donning for superior food safety.

Available in 100 lightly powdered or powder-free gloves per box.
