

## **Ambulatory Quality Improvement Learning Network**

The Purpose of the Ambulatory Quality Network is to support Alliances in developing a sustainable QI infrastructure that results in improved outcomes.

The Goal of the Ambulatory Quality Network is to foster a collaborative, peer learning environment and to assist communities with building infrastructure to sustain ongoing improvement of primary care physicians.

### **Activities:**

- Peer-to-Peer Learning Groups: The first two topics are: Patient Centered Medical Home and Implementing a Collaborative
- AQN Resource Repository
- Direct Technical Assistance from Experts

### **Benefits:**

- Engage national experts and leaders in QI to discuss topics
- Access resources, tools and information on AQI initiatives in other communities
- Learn from peer exchange in a supportive environment
- Tap into flexible curriculum that is comprehensive and built around your needs

### **Target Audience:**

- Clinician champions in the community
- Clinician network leaders
- Members of the Alliance Leadership Team
- Associated workgroups
- Project Directors

### **To Sign Up:**

If you are interested in learning more or enrolling in the learning groups, please email:

1. [AQI-PCMH@forces4quality.org](mailto:AQI-PCMH@forces4quality.org) to enroll in the Patient-Centered Medical Home group; and/or
2. [AQI-Collaborative@forces4quality.org](mailto:AQI-Collaborative@forces4quality.org) to enroll in the Establishing and Implementing a Collaborative group.

You will receive a confirmation email and be asked some additional demographic information.
